Hongkong Tides.

The Tide Table given below has been compiled by the Nautical Almanac Office in London from the result of the analysis of observations taken by means of an automatic tide recording machine in the Water Police Basin at Tam Hsi Tsui during the years 1897-98.

The zero of the table is Low Water Ordinary Spring Tides, which has been found to be 2 feet below mean sea level.

To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 8 ft. 7 in. and on the gauge at Lamont Dock, Aberdeen, add 12 ft. 9 in. the height given in the table.

The Review discusses those topics which are of interest to the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of being kept in the latest news. It contains many interesting Notes and original papers on the Arts, Sciences, Education, Politics, Geography, History, Literature, Social Manners and Customs, etc., etc. of China, Japan, Korea, Tibet, and the Far East, and is a most valuable and complete source of information. Recently a large number of papers on Trade, Commerce, and Descriptive Notes of Travel by well-known writers. It was thought that by circulating the Review the knowledge of the 'Far East' would be made more generally useful. The Review department receives a great deal of attention, and endeavours are made to present a careful and concise record of literature on China etc., and to give original and interesting sketches of the most recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China Mail Office.' The Notes and Queries are still continued, and an important means of obtaining information and diffusing among students knowledge on obscure points. Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is usually cultivated. HONGKONG, January 18, 1898. 140		THE CHINA REVIEW. PUBLISHED BI-MONTHLY. THIS Review, which was intended to meet the wants of many students of China and Japan, has reached its twenty-second volume. The Review discusses those topics which are of interest to the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of being kept in the latest news. It contains many interesting Notes and original papers on the Arts, Sciences, Education, Politics, Geography, History, Literature, Social Manners and Customs, etc., etc. of China, Japan, Korea, Tibet, and the Far East, and is a most valuable and complete source of information. Recently a large number of papers on Trade, Commerce, and Descriptive Notes of Travel by well-known writers. It was thought that by circulating the Review the knowledge of the 'Far East' would be made more generally useful. The Review department receives a great deal of attention, and endeavours are made to present a careful and concise record of literature on China etc., and to give original and interesting sketches of the most recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China Mail Office.' The Notes and Queries are still continued, and an important means of obtaining information and diffusing among students knowledge on obscure points. The Correspondent's column also affords further and greater facilities for the interchange of views and discussion of various topics. Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is usually cultivated. Amongst the regular contributors are: Dr. Chalmers, Elliot, Brothmeyer, and Hirth, Professor Legge, and Messrs. The subscription is fixed at \$2.00 per annum delivered in Hongkong, or \$2.50 per annum delivered by post to other ports. It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantees and securities necessary to place it on a business and legal footing. The proprietors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, consider themselves justified in guaranteeing a large and ever-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the Chinese community generally will find it to their interest to avail themselves of them. The field open to a paper of this description—conducted by native efforts, but progressive and self-sustaining in tone—is almost limitless. It is on the one hand a Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with local, shipping, and Commercial News and Advertisements. Subscription orders for the above may be sent to: GEO. MURRAY BAIN, China Mail Office.
